VP Bank **expedites its Data Extraction, Transformation & Loading Operations** with end-to-end automation by LERA

Client - VP BankAG

2nd largest commercial bank in Vietnam

200+ branches | **7000+** employees

❤ **VPBank**

The Challenges

Issues in handling CBS T24 that slowed down processes

Challenges with real-time assessment of multiple data sources

Long hours in data extraction from approx. 1.5 million customer records

Prolonged time spent in T24 report generation for the management

Difficulty in matching the **data delivery deadlines**

Impact on **regulatory compliance** and **performance review**

Lera's Expertise

In today's age, data is one of the most valuable assets across various industries. This data needs to be **collected, consolidated,** and **analysed** to get an insight into consumer behaviour, improve business decision-making, and thus, maximize revenue.

Lera Technologies provides end-to-end automated data **Extraction, Transformation and Loading (ETL)** solutions that enable **lightning-fast extraction** with **secure storage of your business data** for consolidated reporting and analysis that further leads to **insight-driven action.**

The Approach

- Custom **extraction, transformation & loading (ETL) strategies**
- **Extraction** of data in **real time** from multiple **data sources**
- **Transformation** of data via **cleansing, formatting** and **quality** maintenance
- **Loading** of data for secure integration in **data warehouses**
- Consolidation of data to **generate prompt reporting, analyses,** and **dashboard**

eficaz

The Technology

> **Eficaz** is **Lera's proprietary world-class data extraction, transformation & loading (ETL)** suite and **data warehousing (DW)** solution.

CBS T24 Integrated

Centralized

Scalable

End-To-End Automated

Lightning-Fast

The Results

3 Spent **under 3 minutes** to **extract** large target databases

Performed **approx. 100 extractions** to achieve **50 million records/day**

Extracted **11 source tables** from T24 to Staging DB

Delivered **54 reports within 2 hours after COB**
